AMENDMENT

Dear Sir:

Please enter the following amendments and consider the following remarks.

AMENDMENTS

In the claims:

1. (Twice Amended) A method of reducing contamination in a nucleic acid analyzer, the method comprising the steps of:

(a) providing a nucleic acid analyzer containing a first sample, wherein the first sample comprises a first nucleic acid that could contaminate a PCR reaction to be performed on a second sample;

(b) contacting a first electrically conductive surface and a second electrically conductive surface to a portion of the first sample;
